SINGLE COPIES OF THE NEWS.

Single copies of the News are three cents
each. For convenience of patrons single
copies of each issue for sale at the following
places:
South Paris, Wiley's Drug Store.
Norway, Shurtliff's Drug Store.
Rumford Falls, C. Clifford.

Come time on deer, etc., begins
Jan. 1st. In our item last week the
type made us say seven days
when the item should have read
eleven days.

Mr. J. W. Smith wishes to ex-
press his thanks through the News
to Mr. and Mrs. E. C. Chamber-
lain for the ever thoughtful
Xmas present received from them.

In last week's issue we stated,
by error, that Judge Frye was ad-
mitted to the bar in 1820. Now we
haven't any doubt but the Judge
began to study law in 1820 or very
soon after, but he was not admitted
until 1851. And we said in another
item that A. C. Frost shod oxen.
This also was an error. Mr. Frost
devotes his time to the shoeing of
horses. In this branch of the black-
smithing business Mr. Frost excels,
having won quite a reputation
among our local horsemen as a
shoer. He shoes many trotters and
is considered an expert.

The Masonic Installation and
supper last Wednesday evening was
a very successful affair. A
large number of visitors from Nor-
way, Paris and other places were
present. Nearly one hundred
enjoyed the excellent supper at the
Elms prepared by landlady
Loveloy and it was pronounced one
of the best suppers ever served in
Bethel. The Masonic Lodge here is
in a flourishing condition and
this pleasant occasion only served
to strengthen the ties of brotherly
love.

The Sunday school of the
Methodist church gave a very fine
Christmas entertainment Tuesday
evening. The program was well
rendered and was very good, the
children and young people who
took part seemed to see which could
do the best.

The Pastor gave a report from
the Jr. Epworth League examina-
tion, conducted by himself. Eight
children passed the examination,
which consisted of one hundred and
fifty questions.

A CHANCE FOR ALL.

The publishers of the News will
give two presents to the two persons
who will on or before the first day
of February send in the largest list
of words taken from the letters in
the words "THE BETHEL NEWS."
The first prize will be one dozen
cabinet photographs of the winner
and Irving Kimball is to furnish
them. The second prize will be a
year's subscription to the News.
Full particulars next week with
the rules to govern the contest.

SOUTH BETHEL.

Osmond Smith is building a nice hen
house, back of his stable. Billy Robin-
son is doing the work for him. He has
purchased some fine fall blood Fly-
mouth Rocks of Wm. Olack.
The friends and neighbors of Mr. Gil-
man Blake gave him a surprise party
Friday evening in honor of his seventy-
fifth birthday.

A treat of fruit and confectionery was
served and a pleasant evening was pass-
ed. All his friends join in wishing him
many happy returns of the day.
The Circle met with Mrs. L. W. Rus-
sell, Thursday afternoon and evening.
It meets again in two weeks at Mrs.
Copeland's.

ODDS AND ENDS.

The Paris museum contains more
than 20,000 stone implements, all of
which were gathered in France.
The latest statistics prove that Ber-
lin has a population of 1,815,000 and
86,000 houses. This makes an average
of 49 persons to each house.

A London pauper picked up an apple
on the workhouse grounds last summer
and ate it. He was committed to the
penitentiary, and after an imprisonment of two
months was released by the grand jury
refusing to find an indictment against
him.

Little Iron Bar, 2183 ft., that acquired
a great reputation as a game race horse
this season, has completely recovered
from his lameness, and promises to be-
come a dangerous factor in his class
next year.—Horseman.

CHRISTMAS FESTIVITIES.

"Are they not having a lovely
time?" We heard this question
asked last evening as we entered
the dining room of the Congrega-
tional church and observed a
long table filled with merry, laugh-
ing children and crowded with all
the good things that make the
heart of childhood glad. The chil-
dren, and older people for that mat-
ter, were out en masse and the
long tables in the diningroom were
twice filled by happy, thankful
people. After supper the children's
concert was the attraction and the
little ones did great credit to
themselves and teachers.

It would be hard to say who did
the best, all did well and all
seemed happy. After the concert
adjournment was made to the
chapel where three Christmas trees
labeled with presents dazzled the
eyes of the little ones. Santa had
left an abundant supply of pretty
things for the children and as
the various names were called
and the presents received by eager
hands, we could not help exclaim-
ing, "Bless you, every one."
Christmas time is a happy time and
the little ones at the Congregational
church have special reason to re-
member the Christmas of 1895.

Joy and merriment flowed at
high tide at the Universalist Church
last evening. The whole building
was brilliantly lighted and the
church and chapel were made one
room by means of the large folding
doors between. Below were spread
long tables literally burdened with
good things to please the inner
man. About six o'clock the dining
room was actually besieged by a
host of little ones, while the older
ones made up the reserve force.
Right of way was given to the chil-
dren, and yet all seemed to in-
hibit the spirit of the occasion and mirth
ran riot during the entire evening.
Twice or more were the tables filled
and still the larder remained
well supplied. After supper all re-
paired to the audience room of the
church where two trees heavily
loaded with gifts. A beautiful
Christmas exercise was finely
rendered by the choir and children,
interspersed with recitations, after
which old "Santa Claus" appeared
and started the distribution of the
presents, but could stay only a short
time on account of other engage-
ments. Withal it was a most en-
joyable time. Mary said the
Christmas exercise was the best
they had ever heard. The large
number present testified to the
general desire to make this the
happiest time of all the year.

RESOLUTIONS.

Bethel Lodge, No. 97, F. & A. M.
Bethel, Me., Nov. 14, 1895.
Whereas, Our Heavenly Father,
before whose will we humbly and
reverently bow, has removed by
death another member of our
Lodge, in the person of James M.
Brown, therefore, as a Lodge, be it
Resolved,—That while we recog-
nize the goodness and justice of
our common Father, in all His
ways, we at the same time mourn
the loss of our brother.

Resolved.—That we bear wit-
ness to his noble qualities, as a
member of our Fraternity, as a citi-
zen, and as a neighbor, ever filled
as he was with the spirit of
Christian charity, for the good of
others.

Resolved.—That in our heart-
felt sympathy to the relatives and
friends of the deceased.

Resolved.—That a copy of these
resolutions be forwarded to the
family of the deceased, to our local
paper for publication, also that
they be spread upon the records of
our Lodge.

C. M. Abbott, Committee.

NORWAY.

The warm weather and heavy rain
of Sat. and Sun. carried off the snow,
making traveling difficult.
The shoe business is getting a little
quiet at present but will no doubt
rush again after the holidays.

Merritt Welch's "Liberty Bell" in
his store window is well worth seeing.
The incandescent light is so draped
with handkerchiefs as to form a per-
fect likeness of the historic relic.

The gentlemen of the Congrega-
tional society will serve a supper
and present an entertainment in the
Church Chapel Tues. eve., Dec.
31st. Something good to eat and
a lively time is assured.

A great display of inventive genius
is in the largeshow window of Noyes
& Andrews' dry goods store. A moss
covered old fashioned mill, run by an
over shot wheel fed from a miniature
pond, attracts crowds. The most in-
teresting feature is the live fish
that are swimming around in the
waste water below the wheel.

Christmas Sunday was observed at
the Congregational church regard-
less of the rain and bad traveling.
Rev. Mr. Rideout preached an ap-
propriate sermon in the morning fol-
lowing which, four new members were
added to the church roll. In the
evening an interesting concert was
given, consisting of reading by the
members of the Sabbath school, and
music by a large chorus, under the
direction of Mrs. Horne. The large
crowd present testified to the worth
of the concert by a generous collection.

NORTH NORWAY.

J. K. French has returned from Bos-
ton.
Mrs. Kilgore and children from Nor-
way Lake are stopping at Bert Dill's.
Miss Cummings, the book agent, was
in this vicinity delivering books last
week.
Mrs. Thomas Newcomb had a stroke
of paralysis last Saturday, and at last
accounts was unconscious.
Messrs. French and Wm. Temple from
Leviata, went fishing for pickerel at
Noyes and had good success.
Calvin Hussey has closed his house
since his wife's death, and is stopping
with his son Horace.

A Christian Endeavor Society has
been formed here with forty-five mem-
bers. E. O. French has been chosen
President.

BUCKFIELD.

Sunday's powerful rain is breaking
the ice in the Neziuscott.
Charles Merrill, an elderly man who
lived on South Hill, died Sunday.
The proceeds of the Baptist fair at
Neziuscott hall the 18th inst. were \$55.
H. W. Hillier of Norway has of late
been canvassing for the Busy Bee watch-
er.
Rather a rare occurrence to see peo-
ple taking a sun bath in December, as
has been the case here of late.
The Christmas concert at the Baptist
church Sunday evening by the children
is reported as an occasion of interest.
The three young alligators brought
from Florida last spring by Lee Bridg-
ham, have succumbed to the cooler at-
mosphere.
Rayson, of Mechanic Falls, is moving
one of the freight depots across the
rails. It is to be converted into a feed
mill by Harris and Shaw.
C. B. Atwood's horse, in trying to as-
cend the guards on the bridge Sunday,
flopped things suddenly. But little
damage.

One of our lawyers, having a lone
man's estate to settle, finds a shepherd
dog with none to herd the same. He
takes him to his home, doubtless think-
ing him a valuable acquisition. The
first of a series of depredations was
tearing up a sheet and coverlet. The
next was a bed, the whole of about \$25.
value. He is out of a dog just now.

NEWRY.

men.

Isaac Small, recently.

There was a Christmas tree at V. I. S.
hall Tuesday night, also one at Rumford
Point in the Congregational church.

There is to be a lecture at V. I. S.
hall next Saturday night. Subject: Why
we should all love Jesus.

visit.

for Julian Farrar.

work for R. B. Thurston.

ond term of school here Monday, after
a vacation of three weeks, a part
of which she passed with friends at Deer-
ing.

LADY AND GENTLEMAN.

Patients are frequently seen going
to the Keeley Institute, Deering,
Maine, on bicycles. The New
Woman is there among other la-
dies, and the coming man is also
there. Radical changes for the
betterment of mankind must soon
be felt from the effects of the Kee-
ley treatment as administered at
Deering, Maine, the only Keeley
Institute in this State.

Rev. Dr. Parker

Is the beloved pastor of the Universa-
list church at Fargo, N. D., and has also
been a pastor in Providence, R. I., New
York City and Troy, N. Y. He says:
"I regard Hood's Sarsaparilla the best
blood purifier, and I have good reason for
this opinion. I am now 80 years
of age. Four years
ago I was afflicted
with rheumatism
in my back and
limbs, so badly
that it was impos-
sible for me to
get my usual sleep
at night. I had
just partially re-
covered from the
grip, which re-
sulted in my weight
dropping to 110
pounds. My ap-
petite was poor and I felt languid and
weak. In fact I was in a very dispirited con-
dition. Having heard and read so much
about the wonderful cures produced by
Hood's Sarsaparilla, I resolved to give it
a trial. I followed the directions, and be-
fore the first bottle was finished my ap-
petite was restored, and I felt
invigorated and strong.
My rheumatism had entirely dis-
appeared. I cannot but think highly of
Hood's Sarsaparilla." Rev. J. N. PARKER.

True Blood Purifier

NEWRY CORNER.

We have had an unseasonable rain,
but now it is growing colder again and
many are waiting and wishing for
snow.

Thurston's mill is shut down for a few
days on account of the engine and fire
rooms being flooded by the recent rain.

E. K. Barker was in Bangor last week
attending the State Grange meeting.

At the town meeting last Saturday it
was voted to raise \$400.00 to finish pay-
ing for the two new school houses in
this town. The building committee re-
fused to make known the cost of each
school house separately, but as near as
we can learn, the one on Sunday river
cost about \$500.00, and the one on Bear
river about \$300.00—but little difference
in the two except the cost.

WOULD YOU BE BRILLIANT

The attention of the readers of this
paper is called to the new physiological dis-
covery, Memory Restorative Tablets,
compounded by the Memory Elements

These Tablets are highly endorsed for
permanently increasing the memory and

nervous exhaustion and nervousness.
They are composed of an extract from
certain portions of the brain and their
prompt action is quite astonishing; no

them, for memory is the mother of wis-
dom. Everybody should recognize the
invaluable value of a good memory which
is the supreme guarantee of success in
every line of endeavor. Testimonials prove that dull
and backward students, and others, be-
come quite brilliant and intellectual after
taking the Tablets for a few weeks. The
great benefits to be derived from them ap-
pear to the intelligence of everyone;
therefore, they are endorsed by the med-
ical profession and scientists as being a
marvelous product of modern science.

MINERALS.

Marble is said to exist in 24 of our
states.
The hyacinth is found in Maine and
the lake regions.
The moonstone exists in North Caro-
lina and Georgia.
Our copper production is more than
twice that of all other countries.
Lead deposits of almost incalculable ex-
tent are found in Missouri and Kansas.
Both Alabama and Michigan have
passed Pennsylvania as iron producers.
The value of our mineral product in
1891 reached the enormous aggregate of
\$608,624,687.
Colorado in 1890 produced 70,888
tons of lead, or nearly one-half the pro-
duct of the country.
The most of the world's petroleum is
produced in the United States, our only
important competitor being Russia.
Our product of salt in 1890 was
8,776,991 barrels, the supply coming
largely from Michigan and western New
York.
California diamonds are found in all
the colors, from a brilliant white to a
clear black, together with rose, pink,
yellow, blue and green.
In 1890 our product of natural gas
was estimated at \$55,150,000 cubic feet,
displacing for heating and illuminating
purposes at least 9,774,417 tons of coal.
Although petroleum in small quanti-
ties is widely distributed throughout
the United States, the principal supply
comes from western Pennsylvania,
southwestern New York, Ohio and West
Virginia.
The United States produced almost
one-third of the total product of coal
mined in the whole world during the
year 1891. The amount produced
by all the coal mining nations was over
half a billion short tons.—St. Louis
Globe-Democrat.

The Fastest Trot Gossip.
The Morning Post will publish an in-
spired paragraph about your wedding
or your death for the sum of 1 guinea,
but would not for 20 guineas describe
your personal appearance, tell an eager
world how, when and where you made
the acquaintance of your wife, divulge
the secret of your exact income, or, in
a word, make any mention at all of
your private affairs. But there are a
vast number of people who like nothing
better than reading about their private
affairs in print and are not unwilling
to pay for their pleasure. It has occur-
red to a clever exploiter of the weak-
nesses of his kind to start a newspaper
for the benefit of these gentle egotists,
and it is to be hoped that his faith in
human folly will not go unrewarded.
The paper is to be published weekly.
Subscribers of 5 guineas a year will
have a right to one paragraph, written
by themselves. If so desired, in each is-
sue; subscribers of 8 guineas to two. It
is to be sent gratis to every morning
and evening journal, and to over 500
other papers, many of which will, no
doubt, fill out their columns with ex-
tracts from it. "Remorseful" if the world
continues to know nothing of its great-
est men it will be entirely the fault of
the great men themselves. The possi-
bilities of such a paper are immense. I
Judge Doe, and contrary to expectation
the state concluded their case in the fore-
noon. At the afternoon session Stock-
well pleaded guilty to murder in the sec-
ond degree, and the state accepted it. He
was then sentenced to 30 years in state
prison by Chief Justice Doe.

known.
